"Look deep into nature, and then you will understand everything better. There is pleasure in the pathless woods, there is rapture in the lonely shore, there is society where none intrudes, by the deep sea, and music in its roar; I love not Man the less, but Nature more."

-George Gordon Byron

This book serves as a demonstration of a multitude of techniques that have been learned and practiced during the Fall of 2017. Each image is meant to inspire the viewer to go out and create.

"To me, photography is an art of observation. It's about finding something interesting in an ordinary place... I've found it has little to do with the things you see and everything to do with the way you see them."
— Elliott Erwitt
